

1,000 PROJECTS AND COUNTING

\$250M+

Grant dollars awarded in 2018.

In January 2019, we launched a new strategy for Arnold Ventures focusing on achieving policy change in our core areas of [Criminal Justice](#), [Health](#), [Education](#) and [Public Finance](#) using [Research](#), [Evidence](#) and [Advocacy](#) as our tools. To do this, we support organizations that are aligned with our objective of maximizing opportunity and minimizing injustice. This support is awarded through three funding entities: Laura and John Arnold Foundation (LJAF), Laura and John Arnold Donor Advised

Fund (DAF), and Action Now Initiative (ANI). The listing below includes all LJAF historical giving from 2011 to 2018. Going forward, this will be updated with all LJAF, DAF and ANI giving related to our core areas and emerging areas, which currently include climate, democracy, and [journalism](#). LJAF and DAF giving will be updated quarterly, and ANI giving will be updated annually. Learn more about the Arnolds' [personal philanthropy](#).
