## OVERVIEW

This grant supports the Evergreen Collaborative: a new initiative to elevate the urgency and positive opportunities of bold climate action. The collaborative's work will focus initially on policies to drive new public investment and strong regulatory standards that advance climate solutions. This work is informed by the current economic crisis triggered by global pandemic, trade wars over oil, and the failure to invest in American infrastructure and a strong social safety net. (Substrategy: U.S. National Policy)

Oct 14, 2020 | \$400,000

**for support of The League** >

This grant will support The League, which uses narrative and culture change campaigns to create a cultural environment supportive of reproductive rights and justice. Using audience segmentation developed through a rigorous research process that resulted in "Story at Scale", they will reach "persuadable" groups with targeted campaigns designed to shift their perspectives and support of issues related to gender justice, including reproductive rights. (Substrategy: Advocacy)

**for support of Trusted Elections Fund** >

The Trusted Elections Fund, a project of New Venture Fund, is a pooled fund that will make grants to address election-related emergencies that threaten the integrity of our election system. The fund will support organizations fighting to ensure free and fair elections, and to protect the rule of law. Throughout 2020, the Trusted Elections Fund will make grants that focus on crisis areas that are urgent, unique to 2020, and underfunded.
