

TAKE ACTION

Let's Hold Facebook Accountable

Facebook has allowed climate denial to thrive by creating a loophole through which climate content can be marked as "opinion." It has elevated Breitbart News as a "trusted news source" and designated *The Daily Caller* as a "fact checker," despite both having deep ties to white supremacists. And it has stood by and allowed disinformation about elections to be targeted at Black people, helping to suppress their votes.

Facebook's practices directly undermine our efforts to build support for a just, inclusive clean energy economy. As a result, we are pulling all ads from Facebook this month.
